

# **EXHIBIT 24**

## EXHIBIT 24

The screenshot shows a web browser window for the AT&T FamilyMap Help page. The URL in the address bar is <https://familymap.wireless.att.com/finder-att-family/helpContent.htm?topic=3>. The page title is "help". Under the heading "security & privacy", there are three links: "[Do my family members know when I locate them?](#)", "[Are tools available to help manage privacy preferences of phones on my family's account?](#)", and "[Is my family's location information protected?](#)". A "Sign In" link is located in the top right corner of the page header.

> [Do my family members know when I locate them?](#)

For security reasons, phones receive a text message from AT&T FamilyMap when they become locatable. Additionally, locatable phones receive a periodic notification via text message that they can be located. These messages are received about once a month.

Subscribers have the option of notifying a phone every time it is located in lieu of periodic notifications. To manage your preferences, click **Child Notifications** from the **Manage Account** screen.
